

# TiHAN Orientation Session Report

**7th January,  
2026**

The orientation session held on 07-01-2026 at 2:00 PM at the ICFAI Tech Auditorium featured an engaging and detailed interaction with representatives from the Technology Innovation Hub on Autonomous Navigation (TiHAN), IIT Hyderabad. The speaker spoke at length about TiHAN's key initiatives, including India's first Autonomous Campus Shuttle, edge-enabled drone systems, AI-powered ADAS safety frameworks, intelligent perception and navigation platforms, and smart mobility solutions for urban and agricultural environments. Through real-world examples and demonstrations, the session highlighted how these projects are addressing practical challenges while advancing research in autonomous navigation and AI.

The talk concluded with an interactive Q&A session, where participants actively raised questions about project involvement, research opportunities, and career pathways within TiHAN. The speaker responded with clarity and enthusiasm, encouraging students and researchers to explore collaboration, innovation, and startup opportunities within the TiHAN ecosystem.
