

VIDHYADHAN PROGRAM REPORT

2025

21st November 2025

VIDHYADHAN

INTRODUCTION

”

The Paritantra Club of IcfaiTech has always been committed to creating social, educational, and environmental impact through student-driven initiatives. As a part of its outreach efforts, the club organized the Vidhyadhan Program on 21st November 2025 at Sri Resu Sathi Reddy – Zilla Parishad School, Maharajpet. The program aimed to empower school students academically, improve their learning resources, and encourage sustainable living habits through environmental awareness.

Education and environmental consciousness are two essential pillars in shaping the younger generation. Many government school students lack access to adequate study materials, motivation, and exposure to environmental activities. Recognizing this need, the Paritantra Club curated a program that not only supported academic growth but also fostered ecological responsibility.

Objectives of the Program

- To provide academic support by distributing essential study materials such as notebooks and workbooks to the students.
- To promote environmental awareness among students through a motivational talk by Anjana Matta Sir.
- To strengthen collaboration between IcfaiTech's Paritantra Club and local educational institutions.
- To motivate students to pursue education with dedication and curiosity.
- To encourage sustainable habits through discussions on plantation and eco-friendly practices.

Program Activities

3.1 Distribution of Study Materials

One of the major highlights of the event was the distribution of educational materials. Volunteers arranged notebooks, workbooks, and other learning materials and distributed them class by class. Students interacted with volunteers and expressed excitement upon receiving useful resources.

3.2 Inspiring Speech by Anjana Matta Sir

A key component of the program was the motivational session delivered by Anjana Matta Sir, who spoke about plantation, sustainability, environmental protection, and the importance of student participation in eco-friendly activities.

3.3 Interaction with School Staff

Volunteers connected with the headmaster, teachers, and supporting staff. Informational pamphlets were shared, and discussions were held regarding future collaborations to support student development.

3.4 Classroom Engagement

Volunteers visited classrooms, engaged students with interactive discussions, and ensured proper distribution of materials. Students actively participated and shared their thoughts on education and environmental cleanliness.

4. Overall Impact of the Program

4.1 Academic Impact

- Students gained access to essential learning materials.
- Distribution of materials boosted students' motivation.
- Teachers appreciated the support offered to students.

4.2 Environmental Awareness Impact

- Students learned about sustainability and plantation.
- Many students showed interest in adopting eco-friendly habits.

4.3 Community and School Collaboration

- Stronger relationships were built between the school and Paritantra Club.
- School staff welcomed potential future initiatives from the club.

5. Feedback and Observations

Teachers praised the organization and interaction of the volunteers. Students felt motivated and enjoyed participating. Volunteers described the experience as rewarding and impactful.

6. Conclusion

The Vidhyadhan Program successfully combined academic support with environmental awareness. It reinforced the importance of education and sustainability among the students of Maharajpet. The Paritantra Club looks forward to planning more such outreach activities to positively influence society.
