Report on Student Club Initiation Meeting

Event Information

Event Name: Student Club Initiation Meeting
Institution and Organiser: ICFAI School of Architecture, IFHE Campus, Hyderabad
Date: 24 October 2026, Saturday
Time: 3:00–4:00 p.m. | Duration: 1 hour
Location: ICFAI School of Architecture
Mode: In person | Participants: ISARCH students and faculty
Faculty Guidance: The Principal and Prof. Sankh

Introduction

ICFAI School of Architecture held a student club initiation meeting to discuss proposals for clubs reflecting students' creative, cultural, sporting and intellectual interests. Students presented their ideas in the presence of faculty, with guidance and advice from the Principal and Prof. Sankh.

The meeting provided a forum for students to explain the purpose of their proposed clubs and discuss opportunities for participation. Five proposals were presented: MANZAR, VIRASAT, ATHLETIX, The Colloquium Circle and ATELIER.

Objectives of the Meeting

- To provide students with an opportunity to present ideas for student-led clubs.
- To explore interests in photography, heritage, sports, discussion and fashion design.
- To encourage student expression, collaboration and participation in campus life.
- To enable faculty guidance during the initiation of the proposed clubs.

Participation and Discussion

Students shared their proposed club identities and areas of interest through presentations and discussion. Faculty attended the meeting and engaged with the proposals. The photographs record student presentations, audience participation and faculty interaction.

Student Club Proposals

MANZAR

Nyla Noora Quraishi proposed MANZAR as a club for photography and documentation. The proposal brings visual recording and documentation into the range of student-led activities at ISARCH.

VIRASAT

Abhivanth proposed VIRASAT as a Heritage Documentation and Architectural Trophy Club at ISARCH. The proposed focus connects students' interest in architectural heritage with documentation and architectural trophy activities.

ATHLETIX

Fahad proposed ATHLETIX as a sports club. The proposal provides a platform around which interested students can organise their participation in sporting activities.

The Colloquium Circle

Krupa Jain proposed The Colloquium Circle as a space where students can share their thoughts without fear of judgment. Its intended scope includes serious subjects such as architecture, history and politics, as well as films and everyday experiences.

ATELIER

Mohd Rehaan proposed ATELIER as a student-driven fashion club bringing together fashion, styling, colour theory, textiles, photography and visual design. The proposal encourages creative exploration, experimentation and individual expression through fashion and design.

Faculty Guidance

The Principal and Prof. Sankh guided the students and offered advice on their club proposals. The meeting allowed students to discuss their ideas with faculty during this initial stage of development.

Outcomes and Conclusion

The meeting brought five student club proposals into a common discussion and provided an opportunity for student expression and faculty feedback. It established a starting point for further development of the proposed clubs. This report records the proposals and discussion; it does not record formal approval or a final activity calendar.

ISARCH acknowledges the students who presented their ideas, the faculty who attended, and the Principal and Prof. Sankh for their guidance.
